

Program maps are intended to help students in both registering for courses in the recommended sequence and tracking their progress through those courses. Students should consult the Academic Catalog for requirements regarding specific courses, programs, and graduation. Students should use SONIS, the college's student information system, to perform degree audits since the information in SONIS contains each student's official course and credit information.

Students in the Master of Divinity program may consult the Master of Divinity Program Director as they plan and register for courses.

The Academic Record, which is maintained by the Registrar's Office, contains a student's authoritative academic information. Program maps are provided as a personal aid to assist students in planning and tracking their own academic progress; they are not official records. Students alone are responsible for updating and maintaining the confidentiality of their own program maps.
